

Topic : How to kill a Lion in banking style (Please take it Sportingly) ?

Submitted By: Kanak Jain

HSBC Method :

Hire a lion. Give him full rest & make him lazy, Pay him more than his expectation, Never say with him to do any work upto six months, after six months tell him that now you have to fulfill ur yearly target within six months otherwise u will be kick out from jungle. Lion dies due to fear, that if he loose this lazy animals jungle where he will go.

ICICI Method:

Hire a lion. Give him hell a lot of work and pay him lower salary than his politically astute peers. Restructure his job, position, boss, colleagues, designation, department, salary, location every 6 months. Remove all lions above 40 from the organization by giving them VRS. If he kills 2 goats a day, give him target of killing 20 elephants a day, when there are just 10 elephants in the jungle. Lion dies of exhaustion, overkill and restructuring.

HDFC Method:

Hire a lion and ask him to meow like a cat . Give him lots of ESOPs and grass to eat. He will die eventually of hope and starvation.

CITI BANK Method:

Hire the lion, make him take 14 tests and tell him that if he doesn't score 90% he will lose the job. Ask him to extract 60 kg meat out of a 40kg goat. Lion dies of the strain.

ABN AMRO Method:

Hire the lion. Give him high impossible targets and expect a premature delivery of these targets. If the targets are delivered, clap for him in a townhall and if not delivered humiliate him regularly. Lion either dies of excitement or starts behaving like Tom Hanks in Terminal.

STAN.C Method:

Hire a lion, motivate him to outshine other lions in the jungle. Load him with impractical targets and if he finds the prey, ensure jackals in the jungle snatch the prey and the lion dies in oblivion.....

Kotak Method :

Hire a lion, load him with targets to focus on value instead of volume. Every quarter change the style and make his life miserable. If he survives in the system reward him with a hefty bonus.

RBI Method:

Hire a lion and give him a 3000 page circular on how to kill a goat. Amend the circular atleast three times a day. Send him on inspection to the jungle, where he can threaten to cancel the hunting license of any fox, wolf, bear, jackal etc who have violated any provision of the 3000 page circular. Lion dies of boredom.

SBI Method:

Recruits a lion, gives him the power of mouse. Lion dies of over expectation and no results.....

IDBI Method:

Recruits a lion, Give him posting among cats. People call him manager but he is actually a clerk. Expect to work as all-rounder. Lion dies in frustration or escape to another jungle.
